## A company with Polish roots

Since 1984 we have been manufacturing and working as a family business, which, over the years, from a small local factory has become a company recognized on the domestic and foreign markets. Our success is people who are with us. They create and are able to combine the production of traditional confectionery products with modern machines and automatization of production processes.

## Professionalism and innovation

We employ highly qualified personnel, whose next generations join our team. Thanks to active participation in foreign fairs we invest in the latest technological solutions and machines, which ensure repeatability of production creating its high quality.

## Clean label

An unquestionable advantage is that all products in this catalog are made of natural raw materials. The main ingredients are: fresh eggs, rapeseed oil and wheat flour. The recommended products do not contain palm oil, food colorings, aromas, preservatives, flavor enhancers, raising or foaming substances.

## Create your own brand with us
