## ABOUT US:

We are committed to tradition with our tried and tested recipes with their exceptional taste. We have always known, from the very start of our company in 1984, what is most important for us.

As a family company, we value above all flavours that help create the perfect atmosphere for being with others. We endeavour every single day to ensure that these flavours make Brześć's products stand out from the crowd.

Our company is located in the very heart of Poland, in the picturesque Kuyavia Region. It is here that our products of the highest quality with their unique taste - including Crispicos - are made using a combination of state-of-the-art technology and many years of tradition.

Our products are enjoyed throughout Poland and abroad. There is nothing like them on the European market!

# FOR THE LOVE OF ALL THAT'S SWEET

It was our passion that drove us to create Mini Eclairs with sugar. Because we love to share unique taste combinations! What is the secret of this snack? It's the traditional, steam leavened pastry, completely preservative free, made with a huge helping of fresh eggs. This is what makes our Mini Eclairs so deliciously light and crispy.

Why is it so difficult to stop at just one handful?  
Well, because the crispy sugar coating turns this snack into a real ritual!

# SAVOUR THE TASTE

Mini Eclairs with sugar and cinnamon were created because life should be full of small pleasures. Because we want to give you reasons to smile every single day! Our snacks combine at least three. The foundation is our traditional choux pastry, which is completely preservative free, made with a huge helping of fresh eggs. This is what gives our delicate pastry its extraordinary flakiness and lightness.

Super crispy, topped with coarse grain sugar and nature's finest aromatic cinnamon - they will make you reach for more... and more... Our Mini Eclairs with sugar and cinnamon will whet every appetite!

# FOR THE LOVE OF MUNCHING

We know full well that the pleasure of munching is in the crispiness! And our Mini Eclairs with seeds will give you double the pleasure. Because the best snacks are created with the ideal taste and sensation combinations. We have added a unique combination of sesame seeds, black cumin, flaxseed and sunflower seeds to our traditional, steam leavened pastry made with lots of fresh eggs, making them the perfect light and crispy nibble.

Once you try our Mini Eclairs with seeds,  
you'll never want to stop!  
Ideal for every party!
